

# Dakota 2000, Inc.

Structured cabling provides the back bone for the distribution of voice, data, and video signals throughout your business. Dakota 2000 envisioned the future of cabling and has been providing cabling services since 1995.

## Structured Cabling: Is Your Business Ready?

### Service Capabilities

- ◆ Network Components
- ◆ Engineering Solutions
- ◆ Voice, Data, & Video Systems
- ◆ Category 5(e), Category 6 for Gigabit Ethernet
- ◆ Phone Switches

8(a) STARS Contract Number: GS-06F-0307Z

### BiSCi Certified Technicians

- ⇒ BiSCi sets the industry standard for communications cabling and ensures all members meet the highest technical standards as a result.
- ⇒ BiSCi leads the telecommunications industry in the enhancement of quality services and methods around the globe by providing excellent education, promoting skill sharing, and assessing knowledge with professional registration programs.

### Network Installation

#### COPPER CABLING

- Referred to as "Cat 5" or "Cat 6"
- Used for both voice and data.

#### FIBER

- Provides large amounts of voice data
- Used for sending longer distances
- Preferred for use in LANs and WANs.

#### SITE SURVEYS & COST PROPOSALS

After a site survey is performed, a detailed cost proposal can be provided usually free of charge. In effect, the cost proposal as we call it becomes your network design. The cost proposal will outline materials needed, location of materials & equipment, and the cost of labor to install the system. Each situation is different and terms of the cost proposal will be determined on a case-by-case basis.
